Bulk Messaging Setup

Bulk messaging refers to the dissemination of large volumes of messages simultaneously to multiple recipients. Typically conducted through various communication channels such as email, SMS (Short Message Service), or messaging apps, bulk messaging is commonly employed for marketing, notifications, alerts, or any communication strategy that requires reaching a broad audience efficiently. It's often used by businesses, organizations, or individuals to deliver announcements, promotions, updates, or reminders to their subscribers or customer base.

You can access Bulk Messaging through the Administration Panel from the Home tab>SMS>Bulk Messages.

The bulk messaging dashboard allows you to Add Bulk Messages as well as view current and historical messages.

Adding a Bulk Message

1. Click the Add Bulk Message Icon at the top of the Add Bulk message

screen.

A New window will open displaying the requirements for the Message
