

# Call Forwarding Polycom VVX411

To enable call forwarding on a Poly VVX 411 phone, follow these steps:

1. Press the Home button
2. Choose Settings
3. Press Forward
4. Select the Forward type
  1. Always
  2. No Answer
  3. Busy
5. Enter the telephone number starting with 1+area code and number. Example: 13234656772
6. Select Enable

If you selected the **No Answer** option, you should enter the number of rings before your phone forwards the call. A value of 2 is recommended. To disable forwarding for all calls,

1. Press the Home button
2. Choose Settings
3. Press Forward
4. Press Disable for the line.
