Viking CTG-1 Programming

Vikings model CTG-1 is a clock-controlled tone generator designed to provide accurately timed bong alert tones or buzzer alert tone sounds over an existing paging system.

Setting the Clock Time

- Press the MODE button repeatedly until the TIME indicator lights
- 2. Increase or decrease the clock time by pressing the + or -/CANCEL button until the desired time is displayed. Press and hold the + or -/CANCEL button to speed up the selection
- 3. Leave the set time mode by pressing the MODE button.

Setting the Day of the Week

- Press the MODE button repeatedly until the DAYS indicator lights.
- 2. A flashing "A" (without "on" or "of" displayed) indicates today's day has not been set (or power was lost for more than 4 days). The day of week has already been set if a flashing number (1-7) plus "on" or "of" are displayed.
- 3. Select today's day of the week using the TIME (+ and -/CANCEL) buttons. As a general rule, Sunday is day 1 and Saturday is day 7. When today's day of the week is flashing on the display, set it by pressing the DOUBLE alert tone button. A confirmation beep will be heard and today's day number and "on" or "of" will now be displayed.

Setting Timed Alert Tones

- Press the MODE button until the red light goes to Set Events
- 2. Press the + button to select the desired time
- 3. Press the Alert Tone you would like to associate with the time you just set.
 - a. **SINGLE**
 - b. DOUBLE
 - c. TRIPLE
- 4. When complete press the **MODE** button until the red light goes to Lock.

Removing a Timed Alert

- 1. Removing a Timed Alert Tone
- 2. Press the MODE button until the red light goes to REVIEW/CANCEL
- Select the ALERT tone associated with the time you would like to remove until you see the time on the display.
- 4. Press the -/+ CANCEL button to remove the time.
- 5. When complete press the **MODE** button until the red light goes to Lock.
